

UCLA Approval Process for International Agreements Flowchart

The development of all proposed international agreements will begin with one of the standardized templates, as outlined below. The coordinator will complete the appropriate template and facilitate the review and approval process. For questions about which template to use and to obtain the approved template, contact the International Office or Campus Counsel.

Campus Counsel has approved these templates and any modifications will require additional review and approval by Campus Counsel and the Vice Provost, International Studies and Global Engagement (Vice Provost-Int'l).

UCLA Policy 980 sets forth the process for the required review and approval for international agreements, and it is strongly recommended that you read the Policy prior to completing the agreement templates.

Standard Agreement Templates
